Re: **NOTICE OF VIOLATION**
Fix Auto
EPA ID No. AKD 98307 5839

Dear Mr. Dixon:

This Notice of Violation (NOV) is to inform Fix Auto of a violation of the Resource Conservation and Recovery Act, as amended (RCRA). This violation was identified as a result of an inspection performed by the U.S. Environmental Protection Agency on August 5, 2014, at Fix Auto, located at 43965 Sterling Highway, Soldotna, Alaska. The inspection was performed pursuant to the EPA's inspection authority under Section 3007 of RCRA, 42 U.S.C. § 6927.

From the observations made during the inspection, the following RCRA violation was identified at the facility:

Violation - Failure to label containers with the words "Used Oil"

The regulation at 40 C.F.R. § 279.22(c)(1) requires that containers used to store used oil be labeled or marked clearly with the words "Used Oil."

During the inspection, there were two 55-gallon drums containing used oil that were not labeled with the words "Used Oil" in violation of 40 C.F.R. § 279.22(c)(1).

On the afternoon of the inspection, the inspector received an email with photos indicating that the two drums had been labeled with the words "Used Oil." Therefore, this violation has been corrected.

No Further Action Required

Fix Auto addressed and corrected the violation soon after the inspection and sent documentation of the correction to the EPA. Therefore, no further action is necessary.
